# Instant VideoMPX

Easy video capture to DivX® video, WindowsMedia 9, & VCD

- Supports recording to DivX® video
- Capture audio and video to your PC
- Record to MPEG-1, Windows Media 9 video and DivX® video
- USB 2.0 for high-quality video capture
- Create Video CD's and DivX® CD's
- Capture video to play on your Pocket PC, Palm PDA, Portable media player or Digital Media Receiver
- Record over 2 hours of video on a single CD

## Easy Capture Into Future Proof Formats

The Instant VideoMPX is an external audio/video capture device which connects to Windows XP machines with USB 2.0 connections. Instant VideoMPX allows pure un-compressed video to flow over the USB 2.0 connection before it is compressed. Instant VideoMPX lets your PC compress the video into MPEG-1, DIVX or Windows Media Video based on the video compression engine you select.

## Portable Video

Today you need video that is portable and able to play on many different devices. Instant VideoMPX gives you the power and flexibility to capture video that can play on DIVX compatible DVD players, Palm\* and Pocket PC\* PDA's, portable video players and Digital Media receivers. Now you can capture video in a single format that will play on all of your devices.

## Powerful Video Creation Tools

Instant VideoMPX includes Video Studio 8 an easy to use yet full featured video capture and editing application. Set your capture options and record direct to VCD, DivX or Windows Media 9 to create content to play on your PC then burn to CD's or play in your portable video player.

## Applications

- Make Video CD's of home movies to play on most DVD Players
- Capture direct to DIVX, WM9 or other video formats
- Capture video to be transferred to portable media players, PALM and PDA devices.
- Capture video and store on your hard drive so it is easily accessed by Digital Media Receivers such as the ADS Media-Link.

## Includes:

- Instant VideoMPX device with integrated 6 ft. USB 2.0 cable
- 6 ft. RCA audio/video connection cable
- Ulead VideoStudio 8 SE Basic w/ DivX
- User Guide
- Installation CD

## System Requirements:

- Windows XP (Home or Professional)
- An available USB 2.0 port
- Intel Pentium IV 2.0 GHz processor or better
- 256 MB of RAM
- Sound Card - for audio playback
- CD-ROM - for software installation
- CD burner - for creating VCD's or burning video files to CD

## Multi-Trim

The Multi-Trim features in Ulead VideoStudio quickly trim out the parts of the movie you don't want. It's the fast and simple way to do all of your cuts in one simple step without complex editing. But, if you do want to get creative, use the powerful editing tools to add video filters, adjust audio levels, and add fades, wipes, effects, titles, voice narration and more.

## Auto Editing with Movie Wizard

Want to create a fun and exciting video but don't feel creative? Use the Movie Wizard to do the editing for you. Insert the video clips and background music, set the style theme (Vacation, Sports, Romance, etc.) and let Movie Wizard create the complete edited movie for you. Your friends and family will be amazed!

\*compatible software video player required for playback on your portable device.
